I had a big problem in my toilet. I couldn't use it from few days because we blocked it. Finally called a nearest plumber to me. Saw some bad reviews their but I don't no why because I'm really satisfied with their services. Everything was good they are on time and fixed that easily but it was big problem for me. But they charge littlebit higher but maybe not more that other plumbers. Thanks all the team of All Services 4 U Ltd.

Just had a leak in my shower taps that had been dripping quite heavily down through to my kitchen. Allen was helpful over the phone and then quickly made his way over to my apartment solve the problem. He was very friendly, knowledgeable and charged a fair price. Called back, came and sorted on the very same day that we called them!  
Leon is very sweet and friendly, made a very professional diagnosis, clearly explained all the options we had to sort our kitchen and effectively fixed according to our choices. All for a very fair price and Leon definitely did many extra miles here. Will work with them again!

Had an emergency electrical issue in a restaurant I was servicing where by the kitchen sockets had suddenly stopped working. Mo attended within 30 minutes. He is a very professional individual and that truly showed when he was able to diagnose the issue within 10 minutes of being @ the property. The previous electrician had wired the fuse board incorrectly! Once Mo had restored power to the kitchen sockets he also advised us on how to look out for cowboy electricians which we found quite handy. Thank you Mo for truly saving us as it was the launch day of the restaurant opening.
